

# TESTIMONIALS

Wonderful, Exciting and never seen anything like it. I fell in love with all of it. It makes complete sense. Why have I never thought of it before?

**JK from Japan**

So practical and useful -

**KY from Hong Kong**

I had goosebumps when I was drawing and memories started flooding my mind and I was able to look at it and release with out much pain and sorrow. I felt peaceful afterwards -

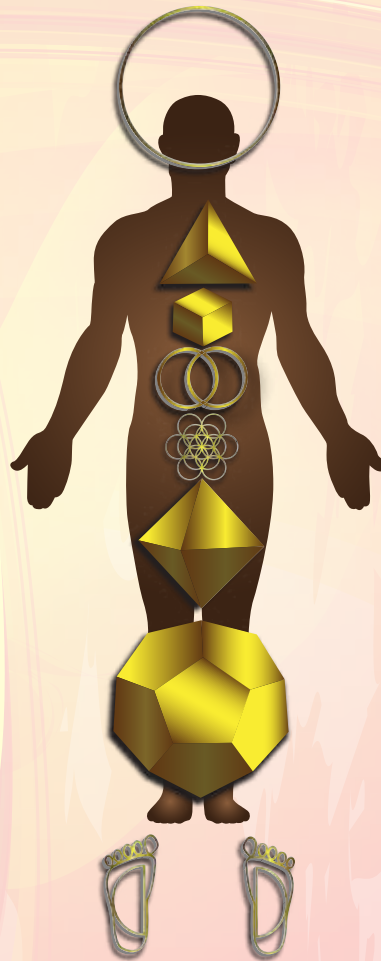

**MC from Hong Kong**

I used the geometry with the numbers to create a particular reality I desired. Amazing -

**KU from Japan**

Meditating on the numbers and geometry made me go deeper into myself and I found a large part of my self. I felt that for all the years, I have lived, I only lived partly and this helped me realize that there is much more to my life than mere existence.

# CODES OF CREATION

" I INVITE YOU ALL TO COME AND PLAY WITH THE  
NUMBERS AND BE THE CONSCIOUS CREATOR OF YOUR LIFE "

BY

**Rae Chandran**

## WHAT ARE CODES OF CREATION?

You must remember that this universe is constructed by an intelligent design and with specific purposes for its creation. How did this intelligent design come about? Was it an accident or was it part of a larger plan? If you look around you will see that everything is alive and vibrating including the stones and rocks. Everything is continually moving and evolving, for by its very nature, everything that is created must seek a higher expression of life, and when it becomes stagnant, then there is decay and death. But what is that keeps the universe moving and in an orderly way. It is the very essence of Love itself. Love can also be called as God/Creator/Spirit. So how does Love create its vast universe. It is by using sacred geometry and mathematics. This was understood by the great seers of the past including the Lemurians, Atlanteans, Egyptians, Mayans and a host of other old cultures.

Now with the advent of the new consciousness and the shift into the Aquarian age, this ancient knowledge is being re-discovered once again, for this was a potential to be known in this new age.

Every expression of life has a corresponding number and a pattern and if one were to know this and work with it, then one has the ability to shift or change any reality. This is the age of empowerment and one has now the ability to shift and change one's reality simply by choosing to experience other reality by shifting their perception and this can be done by using simple drawings combined with simple mathematics.

In this initial introduction, we would like to present some basic numbers and geometry. These numbers and geometry work directly with the four bodies - physical, mental, emotional and spiritual, for these four bodies contains specific codes of energy which interact with the energy contained within the numbers and geometry. This is how the healing takes place. These numbers and geometry has the capacity to interact with the cells in the body in the physical body and also the different organs in the body which holds much energy and which directly impacts our mental and emotional bodies. These numbers and geometry can also help these four bodies to release, heal, transform and transmute any blockages these four bodies are carrying. Your body is made up of sacred geometry, sound codes and mathematical equations.

So when you work with any of these modalities whether it is sacred geometry, sound or mathematical equations, through the essence of the holographic healing, you are healing the entirety of you.

Too good to be true?

I invite you to a new transformation, a new you by using these numbers and geometry.

## WORKSHOP DETAILS.

In the workshop, Rae will guide each participant to draw out the images they feel most drawn to and then Rae will guide each one to draw out the image that is most needed for them at this time in their life. Rae will also do a guided meditation on how to anchor the energies of these patterns into their four bodies. Through out the workshop, Rae will be channeling and guiding people giving messages relating to the images or numbers they are working on. Rae will also give each participant three individual numbers (all channeled on the spot) they can work with in addition to the one's presented in the workshop.

Many a time depending upon the guidance received from Rae's guides and support team, Rae will draw out specific images and channel numbers which go with them other than the one's presented in the workshop. But this is done on individual basis and only as per the guidance from the guides.

Some of the important images we will be working on are:

- Greater Creativity (divine creativity)
- Stress Reduction

- Past does not hold much power over me now
- Feeling safe and protected
